

JavaScript Datatypes Practice Questions (Beginner)

Q1 What is the data type of: 10

Q2 What is the data type of: "Hello"

Q3 true

Q4 null

Q5 undefined

Q6 Symbol('id')

Q7 12345678901234567890n

Q8 {name:'John'}

Q9 [1,2,3]

Q10 function greet(){}

Q11 typeof 100

Q12 typeof '100'

Q13 typeof false

Q14 typeof undefined

Q15 typeof null

Q16 typeof []

Q17 typeof {}

Q18 typedef function(){}
 A18

Q19 Create variable age=20

Q20 isStudent=true

Q21 city='Delhi'

Q22 person={name:'Rahul',age:21}

Q23 colors=['Red','Blue','Green']

Q24 let x=10; typeof x

Q25 let x='10'; typeof x

Q26 let x=true; typeof x

Q27 let x; typeof x

Q28 Primitive or Reference? let user={name:'Aman'}

Q29 Primitive or Reference? let marks=[90,85,70]

Q30 Primitive or Reference? let id=Symbol('id')

Q31 typeof NaN

Q32 typeof 10n

Q33 typeof 'Hello'+5

Q34 Which are Primitive? 42,'Hi',true,null,undefined,Symbol(),10n

Q35 Which are Reference? {},[],function(){}

Mini Challenge: Create variables name, age, isMarried, salary, hobbies, address, greet() and print typeof each.
